

AUTEL at Automechanika Argentina

12-15 Nov. 2014, Argentina

AUTEL Intelligent Technology Corp., Ltd. has lately participated in the 8th edition of Automechanika Argentina (2014) from November 12th to 15th. At this exhibition, AUTEL presented its latest innovative products – MaxiScope, a professional automotive oscilloscope, the Smart Diagnostic & Analysis Systems - MaxiSys Elite, MaxiSys, and MaxiSys Mini, along with other prestigious products including: MaxiDAS DS708, the TPMS series tools, and the Autolink series code readers.

During the show, hundreds of visitors were attracted to the booth and tried out the new products. The brand-new smart diagnostic system was the focus of attention, and had aroused strong and popular interest among the visitors.

About the 8th Automechanika Argentina (2014)

Automechanika Argentina is the international trade show for automotive industry where design, maintenance and repair are showcased biennially at La Rural Trade Center.

With its exhibition space of over 25,000 sqm, and exhibitors and visitors mounting to about 230 and 30,000 respectively, Automechanika Argentina provides manufacturers and distributors direct access to the South America OEM, REPLACEMENT PARTS, AFTERMARKET PARTS, AUTOMOTIVE REMANUFACTURED PARTS, and TUNING markets in a warm and personal setting that forges long lasting commercial and personal relationships. It runs over 3 days and covers a great number of new products from automotive parts to maintenance to mechanical equipment. The event had successfully attracted professional visitors from all around Argentina.
