*Thank you for purchasing AUTEL tool. Manufactured to a high standard, our tool will, if used according to these instructions and properly maintained, give you years of trouble-free performance.*
Getting Started

! **IMPORTANT:** Before operating or maintaining this unit, please read these instructions carefully. Use this unit correctly and properly. Failure to do so may cause damage and/or personal injury and will void the product warranty.
1

- Connect the OBD II cable's female adapter to the MaxiLink ML519
- Tighten the captive screws.

2

- Connect the OBD II cable's 16-pin male adapter to the Vehicle's DLC which is generally located under the vehicle dash.
- The device will be automatically powered up.

3

- Your MaxiLink ML519 is now ready to work.

4

- Scan QR Code to visit our website at www.autel.com for more details.

Please download the **Maxi PC Suite** from
www.autel.com > Support & Updates > Firmware & Downloads > Update Client, and install to your Windows-based computer.
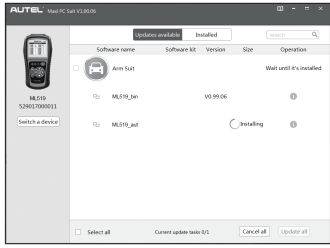

Software Update and Delete

1

- Run the **Maxi PC Suite**.
- Connect the device with the computer using the included USB cable.
- Select **Update Mode** in the tool.

2

- In the **Update** window, select the appropriate files to install.

Data Printing

- Connect the device to the computer with the USB cable supplied.
- Run **Autel Printer** on the computer which is installed after the installation of **Maxi PC Suite.**
- Select **Print Data** function in the Main Screen of the tool. On the data menu screen, use the **UP/DOWN** scroll button to select the data you want to print. Wait for the review window to display, and then select **Print** function.
- The selected data will display on the textbox of the **Autel Printer.** By selecting the function keys on the right, you could execute the following operations:
  Print – print all data in the textbox. (A printer should be connected to the computer.)
  Edit – display an editable NOTEPAD window with recorded data.
  Copy – copy data in the textbox to the clipboard.
  Clear – delete data in the textbox.
  Exit – quit the operation.
