

Region	Software	Makes	Overview	TS 608/M X808TS/ DS 808TS/ MP808TS /MK808T S	ITS 600	MS 906T S	906Pro Ts	TS 508	TS 601	TS 501	TS 408
Global	Sensor & TPMS Diagnostics	All	<p>TS608_Diag_V1.77 TS608_Sensor_V6.18</p> <p>Highlights:</p> <p>1. Adds diagnostic support for newly released domestic models, including ChangAn E-Star, Jetour X70M, BYD Song PLUS 2020, 2021 Xpeng P7, 2021 Haval HaFuDaGou, 2021 GreatWall TANK 300, Haval H6, 2017 Lifan X70, etc.</p> <p>Regular upgrades:</p> <p>Adds diagnostic support for 146 new models in EU, US and CN regions, among which 96 are 2020 and 2021 models:</p> <p>1. Adds diagnostic support for 73 models in EU region, including BMW M3 (2021/01-2021/12), Porsche 911(Turbo) (2017/01-2021/12) and Ford Bronco (2021/01-2021/12), adds diagnostic support for 72 models in US region, including Chevrolet Tahoe (2021/01-2021/12), Hyundai Elantra (2021/01-2022/12) and Toyota Venza (2021/01-2021/12), and adds diagnostic support for 54 models in CN region, including Hyundai Sonata (2021/01-2021/12), Toyota IZOA (2020/05-2021/12) and Geely Preface (2020/11-2021/12).</p> <p>Modification:</p> <p>1. Fixes the VIN reading failure of 'AutoVIN' function for models including VW, Porsche and Kia.</p> <p>2. Fixes the OBD learning failure of some Nissan models.</p> <p>3. Fixes the abnormal OBD learning of Subaru Outback (2014/01-2017/11) in EU/CN region, ChangAn CX70 (2016/01-2020/06) in EU/CN region, and Soueast DX7 (2014/01-2020/12) in US/CN region.</p> <p>Optimization:</p> <p>1. Improves the self-learning efficiency of models including KIA K3, Mazda 3, VW Phideon, Jeep Grand Cherokee, Nissan Sylphy, Range Rover and Ford Focus.</p> <p>2. Optimizes and completes DTC description for Soueast models.</p>								
Global	Sensor & TPMS Diagnostics	All	<p>ITS600_Sensor_V1.04</p> <p>Addition:</p> <p>1. Adds diagnostic support for 388 new models of 2020 and 88 new models of 2021 in EU, US and CN regions; among them, ChangAn E-STAR and Jetour X70M are newly released models in CN region.</p> <p>Optimization:</p> <p>1. Improves the self-learning efficiency of most models supporting self-learning including Ford, VW, Nissan, Toyota, Land Rover, BMW, Kia and Jeep.</p> <p>2. Optimizes 'Wear detection' function, and supports interconnection with wear detection devices.</p>		√						

Global	Sensor & TPMS Diagnostics	All	<p>TS508_Sensor_V6.20 Release date: 2021-04-23 Highlights: none Regular upgrades: Addition: none Modification: Fixes errors in German texts. Optimization: none</p> <p>TS508_Sensor_V6.19 Release date: 2021-03-20 Highlights: 1. Adds diagnostic support for Kia K5 (2020/06-2021/12) and Cherry Tiggo 8 PLUS (2020/10-2021/10) in CN region. Regular upgrades: Addition: 1. Adds diagnostic support for Kia K5 (2020/06-2021/12) and Cherry Tiggo 8 PLUS (2020/10-2021/10) in CN region. Modification: 1. Fixes TPMS sensor trigger failure for some GM models. Optimization: 1. Optimizes pressure display for some models. 2. Optimizes prompt text for learning process.</p>				√			
Global	Sensor & TPMS Diagnostics	All	<p>TS408_Sensor_V6.20 Release date: 2021-04-23 Highlights: none Regular upgrades: Addition: none Modification: Fixes errors in German texts. Optimization: none</p> <p>TS408_Sensor_V6.19 Release date: 2021-03-20 Highlights: 1. Adds diagnostic support for Kia K5 (2020/06-2021/12) and Cherry Tiggo 8 PLUS (2020/10-2021/10) in CN region. Regular upgrades: Addition: 1. Adds diagnostic support for Kia K5 (2020/06-2021/12) and Cherry Tiggo 8 PLUS (2020/10-2021/10) in CN region. Modification: 1. Fixes TPMS sensor trigger failure for some GM models. Optimization: 1. Optimizes pressure display for some models. 2. Optimizes prompt text for learning process.</p>						√	
Global	Sensor & TPMS Diagnostics	All	<p>906Pro Ts_Diag_V1.01 906Pro Ts_Sensor_V1.01 Highlights: Addition: 1. Supports 'TPMS sensor trigger' function, 'MX-sensor program' function, 'Check MX-sensor information' function, etc. 2. Supports 'TPMS Diagnostics' ('Read ID', 'Read codes', 'Erase codes', 'Write ID', 'Register ID', 'Live data', 'Service' function, etc.) 3. Supports 'TPMS retrofit' ('Back-up', 'Retrofit', 'Restore', 'Program Autel ECU', 'Autel ECU relearn', 'Service' function, etc.) 4. Supports 'OE Entry' function: Select TPMS menu via OE number. 5. Supports 'AutoVIN' function and 'Manual selection menu' function.</p>				√
