Table 1-1 Status LED Description

LED	Color	Description
Status	Green	- Lights solid green when the device is ready for use. - Flashes red first, and then lights solid green when connected to the MaxiHVAC tablet via USB cable.
	Yellow	- Lights solid yellow during self-test and internal preparation. - Flashes yellow when the firmware is updating.
	Blue	- Lights solid blue when the device is connected via Bluetooth but there is no data being transmitted. - Flashes blue when transmitting Bluetooth data.

Getting Started

WARNING: Before operating or maintaining this device, please read these instructions carefully, paying extra attention to the safety warnings and precautions. Failure to do so may cause damage and/or personal injury and will void the product warranty.

1. After powering on the MaxiHVAC tablet, tap **HVAC** on the MaxiHVAC Job Menu.

2. Select **Compressor Test** on the Main Menu screen.

3. Select **Special Tool** on the Diagnosis Method Selection screen.

4. Follow the on-screen cable connection diagram to connect the equipment and then follow the prompts on the screen to perform the test. Tap **Next** to continue.

Compliance Information

Autel Intelligent Technology Corp., Ltd. hereby declares that the radio equipment type Compressor Box is in compliance with Directive 2014/53/EU.

The full text of the EU declaration of conformity is available at the following URL:
