Autel Vehicle Diagnostic Tools expands into Europe

Shenzhen, China (2013-1-22) - Autel Intelligent Technology, the world's leading supplier for Automotive DIY diagnostic tools, is pleased to announce its expansion into Europe with a new distribution hub to be located at Mechelen in Belgium.

Following the success of Autel's diagnostic range in the USA and UK, Autel is pleased to announce its expansion into mainland Europe. Autel has acquired a modern distribution centre in the commercial heart of Europe at Wayenborgstraat 27, B-2800 Mechelen, Belgium.

Hong Jin, CEO of Autel in China commented,

"We have seen an exceptional growth in the sales of our diagnostic tools in both the USA and UK. Our new distribution hub in Belgium will allow us to develop our European customer base and service our dealers to the highest level. We are investing in Europe and its people, and are confident that our innovated tools will come to define the European market".

Martin Pinnell-Brown, CEO of Autel UK also commented,

"This is a great move for Autel. With the release of the new tool ranges this spring, we will be delivering innovated and new diagnostic tools to our customers that are completely new to the market. Our product ranges really are the ones to watch, combining capability, quality and affordability".

Autel Intelligent Technology's move into Europe will allow it to provide sales, support and warranty within mainland Europe, with multi-lingual skills thus reinforcing Autel's value that their quality is not just in their product, but also their service and commitment to their customers.
