

MaxiSys important upgrade

Dear User,

To provide a faster diagnostic speed and better service, Autel has optimized the MaxiSys Series software. This optimization will erase **ALL** existing diagnostic software. Please download and install **ALL** you desired diagnostic software before your update subscription period expired.

Optimization procedure:

Step 1: Check the active software period of the device and make sure the update will be finished at the best time.

Step 2: Update the operating system and the device will reboot automatically after update is finished.

Step 3: After reboot, tap Update application and select the desired diagnostic software to update.

Suggested download schedule for better download experience:

North America: Oct.8–Oct.15;

Europe: Oct.15 –Oct. 22;

Other Areas: Oct. 22 –Oct. 30

The optimization pack is still available for users whose update subscription period ends between October 8 and October 31, 2015.

If you have any questions, please contact your local distributor or call us at:
