

MaxiSys Nissan V5.20 2016-10-28

1. Added Hot function menu so users can enter 15 hot functions (such as Injector, Brake and TPMS) through a fast path.
2. Improved accuracy in fault code location, and updated Freeze frame function for 26 systems.
3. Developed a new mode for anti-theft feature; updated the Coding function and added support for 7 ECUs.
4. Added 203 functions, such as Save computer data, Write saved data and Oil grade factor.
5. Added 50 Active tests, such as Injector cylinder 1 and High pressure circuit leak test.
6. Improved scanning time in system auto scan.
7. Allows users to perform online anti-theft function without the 20-digit password for some models, such as 2013 TEANA, 2015 TEANA and 2015 X-trail.
