

## **MaxiSys Serise System Program V2.23 2017-01-09**

1. Added chime and prompt message to remind users to unplug the VCI device (VCIMINI and VCI100) when diagnostic is finished in case of loss.
2. Fixed an issue that programs close abnormally when plug/unplug the network cable during programming for BMW.
3. Improved prompt messages for online Hot Functions.
